

MariaDB MaxScale License Terms

These MariaDB MaxScale License Terms (“**Terms**”) apply to Customer’s use of the MariaDB MaxScale software product (“**MaxScale**”) and its associated Documentation. “**Documentation**” means written technical information pertaining to MaxScale and made available by MariaDB USA, Inc. or an Affiliate thereof (“**MariaDB**”). By using MaxScale, Customer agrees to these Terms. These Terms are in addition to, and supplement, the terms of the subscription agreement separately entered into between Customer and MariaDB (the “**Subscription Agreement**”). Except as set forth herein, capitalized terms will have the meanings set forth in the Subscription Agreement. MaxScale will be considered “Software” as separately defined in the Subscription Agreement.

- 1. License.** Subject to Customer’s payment of the applicable fees for Subscription Services as set forth in an Order Form, MariaDB grants to Customer a limited, nonexclusive and nontransferable license to use MaxScale and the Documentation for Customer’s business operations. Customer’s use of MaxScale is limited to (i) the duration of Customer’s Subscription Agreement and (ii) solely as connected to the Supported Software for which Customer has obtained Subscription Services. MariaDB retains all right, title, interest and ownership of MaxScale and the Documentation. Customer has no right, and agree not to: (i) transfer, assign, redistribute, lease, lend or sublicense its license rights under these Terms to any other person or entity or use MaxScale with any copies of MariaDB products or services or MariaDB Server for which Customer has not obtained a subscription for Subscription Services from MariaDB, and Customer acknowledges that any attempted transfer, assignment, redistribution, sublicense or use will be void; (ii) use or permit MaxScale to be used to perform services for third parties, whether on a service bureau or time sharing basis or otherwise, without the express written authorization of MariaDB; or (iii) copy, decompile, reverse engineer, disassemble, attempt to derive the source code of, decrypt, modify, or create derivative works of MaxScale, or any updates or any part thereof, except as expressly set forth in these Terms or the Subscription Agreement or to the extent made available to you by MariaDB under different license terms.
- 2. Proprietary Notices.** Customer agrees to maintain and reproduce all copyright, proprietary, and other notices on all copies, in any form, of MaxScale in the same form and manner that such copyright and other proprietary notices are included on MaxScale.
- 3. Benchmarking.** Customer may perform benchmarks or comparative tests or evaluations (each, a “**Benchmark**”) of MaxScale. However, Customer must obtain MariaDB’s prior written approval to disclose to a third party the results of any Benchmark of MaxScale.
- 4. Term and Termination.** These Terms will remain effective during the Term of the Subscription Agreement. Upon termination or expiration of these Terms, Customer’s license rights to MaxScale will convert to the version of the Business Source License applicable to MaxScale. All limitations of liability and disclaimers and restrictions of warranty will survive termination of these Terms.
- 5. Miscellaneous.** If any portion of these Terms is found to be void or unenforceable, the remaining provisions of these Terms will remain in full force and effect. Except as expressly provided herein, these Terms, together with the Subscription Agreement, constitute the entire agreement between the parties with respect to the license of MaxScale and Documentation.
